

## SLAMIT Market Place

Dear course participants

An important part of the SLAMIT course is what we have called The SLAMIT Market Place. From the programme you have probably seen that this is on the programme at the end of the Monday. The market place will be set up on the Monday and will be "open" for all until dinner on the Monday.

For those of you who come from the same country you should contact each other regarding the market place and agree on who does what. The e-mail addresses of all participants is also as an attachment in this e-mail. We would like to emphasize that the market place IS NOT A LARGE exhibition, but just a little "taste" about your country and a place where we will meet every day before dinner to get more knowledge about all the countries and also get to know each other better. As there are many countries represented on the course we really do have a wonderful mixture of nations coming together.

We attach some pictures from an earlier Market Place to give you some idea of how it looks.

With regards to questions about the market place please contact John Rullestad of the SLAMIT team:
